MEMORANDUM FOR: Committee on Overhead Reconnaissance

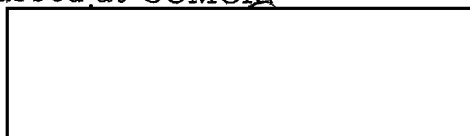

SUBJECT: COMOR Priorities for J Missions--
Mapping and Charting

1. The COMOR Photo Working Group has reviewed a change in priorities for mapping and charting purposes in J missions and finds no conflict with other intelligence coverage priorities. The changes recommended are shown below:

a. The area now shown as second priority in the Yemen-Aden region in the southwestern part of the Arabian Peninsula should be changed to first priority, with special emphasis on the western portion of this area. This change in priority is justified to support stereo triangulation efforts of the Directorate of Military Survey, United Kingdom, currently in progress.

b. The areas identified for obtaining KH-4 photography to assist in control point identification for the DAFF data reduction program should be changed from first priority to second priority (see MCGWG-M-10 of 17 January 1966 and MCGWG-M-11 of 4 February 1966). This action relates to the timing of making changes in input data for reduction of DAFF data.

2. This memorandum is forwarded to COMOR for noting and will be a matter of record for NRO as a change to present mapping and charting requirements for J missions unless a member requests, prior to cob 14 June, that this be discussed at COMOR.
